ZEISS

Seeing beyond

Optics in proven **ZEISS quality.**

High transmission values are ideal for observations in twilight and large fields of view provide an optimum overview. Absolute colour fidelity, brightness and clarity guarantee the finest resolution of details.

Perfect **ergonomics.**

Thanks to their handiness and low weight, ZEISS binoculars fit perfectly in the hand and enable long, fatigue-free observation.

The SmartFocus Concept ensures that the focusing wheel is perfectly positioned. This ensures that you can focus quickly and precisely, even when observing for hours on end.
